Choosing a Template

Once you have chosen your preferred category, the site offers hundreds of customizable templates that you can change to fit your needs. Once you choose your template, you can easily change the background image and the colors to your liking.

The screenshot shows a website template selection interface. At the top, it says "Pick the Travel Photographer website template you love". On the left, there is a search bar and a list of categories: NEW, Most Popular, Blank Templates, All, Business & Services, Music, Entertainment, Online Store, Blog, Hotel & Travel, Restaurant & Hospitality, Photography, and Event Photographer. The main area displays two template options: "Outdoor Photography" and "Photography Showcase". The "Outdoor Photography" template features a grid of photos and a name "Sarah Lane". The "Photography Showcase" template features a large landscape photo and a name "Wild Mountain". Both templates are labeled "Price: Free" and have "View" and "Edit" buttons. A green callout box at the bottom right contains the text: "You can also easily add and remove any pages. But, remember, you can't switch the template itself midway through, so you should choose your template wisely."
